**Office of the Legislative Counsel**

**Thursday - 17 December 1959**

25X1 1. [ ] telephoned saying he had followed the trip of  
25X1 Senator Albert Gore (D., Tenn.) in the NE area and had mentioned this to  
the Director who suggested that [ ] who knows Gore, try to arrange  
an interview. It was agreed that [ ] should go ahead and attempt  
to set up an appointment.

STAT [ ]

25X1 3. Miss Williams, in the office of Senator Hubert Humphrey (D., Minn.)  
25X1 telephoned the Director's office saying the Senator suggested the Director  
see [ ] who had been in Russia four or five times  
in the last year. [ ] will be in Washington next Monday through  
Wednesday. After some checking with Mr. Asacraft, I advised [ ]  
to put a note in to the Director of the call but recommending against the  
Director making an appointment to see [ ] until the matter had  
been discussed with General Cabell.

4. Captain L. P. Gray, USN, in General Nathan Twining's office,  
telephoned stating that he was preparing the DOD Posture Briefings for  
the Congress. Specifically, he had discussed with Twining, Douglas and  
Gates, in the presence of General Breitweiser, the question of CIA review  
of the intelligence portion of the briefing. The request to the Agency was  
that Mr. Dulles personally give his approval of the intelligence portion.  
Captain Gray also suggested close cooperation in connection with appearances  
on the Hill and would like to be advised of scheduled Agency appearances.  
Captain Gray also requested estimated dates for various NIE's such as  
11-8 and 11-4. I assured him that we would cooperate on these matters and  
advised him of our scheduled appearances before House Space and Mahan  
Subcommittees. Captain Gray then asked if it would be possible for  
General Twining to receive advance copies of the Director's statements before  
the Subcommittees. I explained this was a problem, but I would look into  
it and advise.
